EVERYONE Earns 3 AAHAM CEUs for attending

Join AAHAM and Caroline Znaniec, Managing Director in Healthcare Advisory at CohnReznick LLP, as we present this important and timely FREE webinar,

“Price Transparency Nuance Review and Roadmap to Compliance”

New hospital pricing transparency requirements will be implemented beginning January 1, 2021. Due largely to the pandemic, many hospitals delayed their internal efforts towards the compliance date in hopes that a delay in implementation or enforcement would be offered. A delay has not been provided and many hospitals now worry they cannot meet the compliance deadline.

This webinar will provide practical guidance to achieving compliance with the federal hospital price transparency requirements. Guidance will also include a review of the regulatory nuances associated with data extraction, analyses and the publication of the required data.

Attendees will learn:

- How to expand understanding of the price transparency requirements and objectives to also identify value for the hospital
- How to identify the key steps needed in the input, extraction, analysis and publication of data to meet the price transparency compliance deadline
- About debunking common myths associated with the nuances of the price transparency requirements
- A compliance roadmap that outlines key stakeholders, milestones and timing

Level of webinar: Intermediate

Target audience: All revenue cycle professionals
