

**AAHAM WEBINAR  
WEDNESDAY, November 6, 2019  
1:30pm - 3:00 PM ET**

**EVERYONE Earns 3 AAHAM CEUs for attending**

Join AAHAM and Sarah Badahman, CEO and Founder of HIPAAtrek,  
as we present this timely webinar,

**“You’ve Done Your Risk Analysis, Now What?”**

The purpose of conducting your risk analysis is to identify risks, threats, and vulnerabilities, and also to mitigate and manage them. The risk analysis is the first step in your risk management process. Risk management is the ongoing process that comes after the risk analysis. Most consultants and outside firms leave after the risk analysis and you are stuck managing the risks. In this webinar, attendees will learn best practices and useful tips for risk management post risk analysis.

Learn:

- How to assess your risk tolerance and create a plan for accepting, mitigating, or managing identified risks
- How to create a corrective action plan for risks that will be mitigated
- About how to document your risk management activities
- How to use project management methods to manage risks identified in your risk analysis

**Space is limited to the first 100 registrants, register today!**

Level of webinar: Intermediate/Advanced

Target audience: All patient financial services executives, managerial and clinical leadership

**About our speaker:**

Sarah Badahman, CEO and Founder of HIPAAtrek, has spent over a decade in the Healthcare Administration field and particularly, the past eight years mastering the field of HIPAA Compliance and Risk Management.
