

**AAHAM WEBINAR**  
**WEDNESDAY, May 19, 2021**  
**1:30pm - 2:30pm EST**

**EVERYONE Earns 2 AAHAM CEUs for attending**

Join AAHAM, Kelli Bridwell, CPC, at Ensemble Health Partners, as we present this interesting webinar,

**“Life Cycle of A Claim; Billing Basics”**

This webinar will review the logistics of billing and specific direction for claim completion which lead to the claim being paid. “Clean” claims are paid upon the first claim submission and are necessary for timely claim adjudication and payment. For claims that are found to have issues, whether internally or from the payer review, this webinar will discuss how to correct the errors identified. Denials are also good indicators for challenges within the Life Cycle of the Claim. The denials can provide additional insight for system corrections and opportunities for improvements to ensure future denials do not occur.

Attendees will learn:

- How to get as claim paid the first time
- How to eliminate errors in claim submissions
- How to correct identified claim errors
- How to review denials reasons to avoid them in the future

Level of webinar: Intermediate

Target audience: Access staff, Registrars, Revenue Cycle Analysts, Managers, Billing Staff, Physician Practice Managers and Administrators

**About our speaker:**

Kelli began her medical billing and accounting career at Bristol Regional Medical Center in 2004. Kelli has experience working in the following specialties: general surgery, family medicine, chiropractic, podiatry, critical care, plastic and reconstructive surgery, pain management and pulmonology. Kelli has broadened her knowledge to different specialties to maximize reimbursement and revenue for the practice. Kelli uses her broad experience to teach physicians and their staff the correct billing guidelines and coding rules to maximize their revenue.

Kelli decided to take a bit of a different career change to management in early 2018. She used her knowledge of business management, insurance revenue and her love for medicine to manage a large interventional pain management clinic. After nearly a year of

being out of the coding and billing world, she quickly realized she needed to get back to her roots.
