EVERYONE Earns 3 AAHAM CEUs for attending

Join AAHAM and Chastity Werner, CMPE, RHIT, CRCR, CEO for Nationwide Prescription Connection (NPC), as we present this timely webinar,

“Reducing Uncompensated Care and Charity Care Costs by Eliminating Cost Related Medication Non-adherence”

It is estimated that 20-30% of prescriptions are never filled and almost half of prescriptions are not taken as prescribed for patients with chronic diseases. Non-adherence is estimated to cost our country over \$100 billion a year annually with many healthcare providers absorbing these expenses.

Where is the gap and what can we do as providers to help our patients take their medications as prescribed? Many patients do not realize how much their medication will cost until they are at the pharmacy and they are silently struggling with affording them. Many will try to manage the issue themselves by either not picking up their medication or reducing their dosage to try to make the medication last longer.

In January of 2020, over 450 medications had rate increases. Many of these medications are medications that are prescribed on a regular basis. What can be done to assist patients that want to take their medications as prescribed, but cannot afford them? There are numerous opportunities to create a medication assistance program for patients today. Like many things in healthcare, it can be cumbersome and overwhelming many times for patients to handle this on their own.

This webinar will address:

- What does a medication assistance program look like?
- How can you identify patients in need?
- How to find program opportunities?
- Creating an internal workflow
- Identifying results

Level of webinar: Intermediate

Target audience: Patient financial services, access, billing and collection personnel

About our speaker:

Ms. Werner has a 20 year healthcare career including hospital, physician, and payer segments of the industry.
